IT IS RECOMMENDED THAT YOUR BOARD:

1. Adopt the enclosed Resolution Setting a Hearing Date for Withdrawal of Territories designated as Annexation Nos. 1985-44, 1989-08, 1991-01, 1991-02, 1991-03, 1991-06, 1991-07, 1991-08, 1991-11, and 1991-01, from County Lighting Maintenance District 1687, in accordance with Section 5844 of the California Streets and Highways Code. The date of the public hearing shall not be less than 10 days nor more than 30 days after the date of adoption of the resolution. The enclosed Exhibits 1 through 10 identify territories proposed for this action.

2. Instruct the Executive Officer of your Board to give notice of the public hearing for the withdrawal of territories, at least five days prior to the date of hearing, by causing such notice to be published by one insertion in such daily, weekly, or semiweekly newspaper printed, published, and circulated

in the County, and to cause the notice to be posted at least one week prior to the date of hearing, pursuant to the requirements of Section 5845 of the California Streets and Highways Code.

3. Approve the enclosed Engineer's Report, either as filed or as modified, regarding annexation of territories to County Lighting Maintenance Districts 1616B and County Lighting District LLA-1, Palmdale Zone B, and levy of assessments within the annexed territories for street lighting purposes.
4. Adopt the enclosed Resolution of Intention to Annex Territories to County Lighting Maintenance Districts 1616B and County Lighting District LLA-1, Palmdale Zone B, and to Order the Levying of Assessments within the Annexed Territories for Fiscal Year 2003-04. Exhibits 1 through 10 identify the project areas for this action.
5. Set a date for a public hearing regarding the proposed annexation and levy of annual assessments within the annexed territories for street lighting purposes, with a base assessment rate of \$70 for a single-family residence within County Lighting District LLA-1, Palmdale Zone B for Fiscal Year 2003-04. The base assessment rate of \$70 represents a \$65 increase over the current \$5 base rate assessment.

2. Order the tabulation of assessment ballots submitted, and not withdrawn, in support of or opposition to the proposed assessment.
3. Determine whether a majority protest against the proposed annexation or assessment exists.

If there is no majority protest against the proposed annexation or assessment, adopt the enclosed Resolution Ordering Annexation to County Lighting Maintenance District 1616B and County Lighting District LLA-1, Palmdale Zone B (Palmdale Zone B Lighting Districts), either as proposed or as modified by your Board. The adoption of the Resolution Ordering Annexation will constitute the levying of assessments in Fiscal Year 2003-04.
5. Find that the annexations and assessments are for operating expenses; purchasing supplies, equipment, or materials; meeting financial reserve needs and requirements; and obtaining funds for capital projects, including the installation, operation, and maintenance of street lights necessary to maintain service within the proposed annexation areas.
6. Instruct the Executive Officer of your Board to file a copy of the Resolution Ordering Annexation with the County Assessor, Ownership Services Section; and Auditor-Controller, Tax Section.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The Los Angeles County Local Agency Formation Commission previously approved and issued a Certificate of Completion for a City Boundary Change for the annexation of unincorporated County territories, designated as Annexations 1985-44, 1989-08, 1991-01, 1991-02, 1991-03, 1991-06, 1991-07, 1991-08, 1991-11, and 1991-01, to the City of Palmdale. These City annexations did not result in the transfer of these areas from the unincorporated County Lighting Districts to the County-administered Lighting Districts serving the City of Palmdale. The recommended actions will formally initiate the public hearing process for the withdrawal of territories from County Lighting Maintenance District 1687 (Unincorporated County Lighting District), with the intent that the territories be annexed to County Lighting Maintenance District 1616B and County Lighting District LLA-1, Palmdale Zone B.

On January 14, 2003, your Board approved a Resolution Initiating Proceeding for Annexation of Territories to County Lighting Maintenance District 1616B and County Lighting District LLA-1, Palmdale Zone B, and authorized Public Works to prepare and file an Engineer's Report. The approval of the enclosed Engineer's Report and adoption of the enclosed Resolution of Intention will initiate the public hearing and assessment balloting process necessary for the annexation of the territories to the Palmdale Zone B Lighting Districts.

Implementation of Strategic Plan Goals

This action is consistent with the County Strategic Plan Goal of Fiscal Responsibility as the withdrawal of territories from the Unincorporated County Lighting Districts and annexation of the same territories to the Palmdale Zone B Lighting Districts will result in the proper collection of ad valorem property tax and assessment revenue from property owners, whose parcels are benefitted by the street lights, to meet the operational expenses of the existing street lights in these areas. It also satisfies the Goal of Service Excellence since maintaining street lighting services provides for the convenience and safety of the motoring public as well as for the safety and security of people and property, which improves the quality of life in the County and the City of Palmdale.

FISCAL IMPACT/FINANCING

Your Board's approval of the withdrawal of territories from the Unincorporated County Lighting Districts and annexation of the same territories to the Palmdale Zone B Lighting Districts will result in the operational expenses of existing street lights in these areas being

transferred from the Unincorporated County Lighting Districts' account to the Palmdale Zone B Lighting Districts' account. If the annexation and levy of assessments are approved, assessment revenues collected from benefitted properties within the proposed annexation areas will fund the operational expenses of the street lights in Fiscal Year 2003-04. Subject to subsequent approval of your Board at the appropriate time, for Fiscal Year 2004-05 and beyond, the operational expenses of the street lights will be fully funded by assessment revenues, augmented by a small portion of property taxes collected from benefitted parcels.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

These proceedings are governed by the California Street and Highways Code Improvement Act of 1911 (Division 7) and Landscaping and Lighting Act of 1972 (Division 15, Part 2), Article XIIID of the California Constitution, and Section 53753 of the Government Code.

In accordance with Section 5853 of the California Street and Highways Code, the City of Palmdale has adopted a resolution requesting the exclusion of the territories, listed in the enclosed Attachment A, from County Lighting Maintenance District 1687, and granting consent and jurisdiction to the County of Los Angeles in the matter of annexation and to the assessments thereof, and is on file with Public Works. Pursuant to Section 22613 of the California Streets and Highways Code, territories are excluded from an assessment district whenever any territory of an assessment district is included within a city by annexation or incorporation.

The County Lighting Maintenance Districts, formed pursuant to the California Streets and Highways Code Improvement Act of 1911, provides for the collection of ad valorem property taxes for the purpose of providing funding the ongoing operation and maintenance of street lighting facilities within the District. Subsequent to your Board's approval of the Resolution Ordering Annexation of Territories and Levying of Assessments, Public Works will proceed with the processing of a resolution for the exchange of property tax revenues between the County-administered street lighting maintenance districts.

The County Lighting District LLA-1, formed pursuant to the California Streets and Highways Code Landscaping and Lighting Act of 1972, provides for the annexation of territories and levy assessments against benefitted property owners for the purpose of providing supplemental funding for the operation and maintenance of street lighting facilities within the Lighting Districts.

The Honorable Board of Supervisors
April 24, 2003
Page 6

With the passage of Proposition 218 (State Constitution, Articles XIIIC and XIIID) in November 1996, it became necessary to ballot the property owners prior to imposing or increasing a street lighting assessment for the operation and maintenance costs of street lights. As a result, the legal provisions of the Landscaping and Lighting Act and Proposition 218 now govern the process for establishing street lighting assessments.

Pursuant to the requirements of Proposition 218 and Section 53743 of the Government Code, an assessment ballot and public hearing notice will be mailed to property owners within each proposed annexation area no less than 45 days prior to the date of public hearing. The enclosed Resolution of Intention to Annex Territories must be adopted to set a date for the public hearing.

The assessment ballots, weighted according to the amount of the assessment paid by each property, will be tabulated at the conclusion of the public hearing. Only these ballots that are returned will be counted to establish whether a majority protest exists under the provisions of Proposition 218. The assessment cannot be levied if the weighted majority of ballots submitted are opposed to the assessment, in which case, the assessment shall be abandoned and the annexation proceedings terminated. Failure to annex the territory and levy assessments will result in the inability to operate and maintain the street lights as part of a County-administered street lighting district. If a majority protest exists to any of the proposed annexations, then the applicable annexation project should be referred back to Public Works for our consideration of implementing your Board's policy dated November 16, 1999, regarding discontinuing street lighting services in majority protest areas.

Your Board may delay your determination regarding the levying of assessments until a later date, continue the public hearing to receive further testimony, or make a determination regarding the assessment at the close of the public hearing.

Following the Board's adoption of the Resolution Ordering Annexation and Levying of Assessments, Public Works will file with the State Board of Equalization the statement of boundary changes as required by Section 54900 et seq. of the Government Code. Copies of diagrams showing the boundaries of each proposed annexation territories are included with the Resolution of Intention to Annex Territories.

**COUNTY OF LOS ANGELES
DEPARTMENT OF PUBLIC WORKS
ENGINEER'S REPORT
ANNEXATION OF TERRITORIES TO
COUNTY LIGHTING MAINTENANCE DISTRICT 1616B AND
COUNTY LIGHTING DISTRICT LLA-1, PALMDALE ZONE B
AND LEVY OF ASSESSMENTS**

On January 14, 2003, the Board of Supervisors of the County of Los Angeles adopted a Resolution Initiating Proceedings for annexation of territories, as Annexation Nos. 1985-44, 1989-08, 1991-01, 1991-02, 1991-03, 1991-06, 1991-07, 991-08, 1991-11, and 1991-01, to County Lighting Maintenance District 1616B and County Lighting District LLA-1, Palmdale Zone B, pursuant to the Landscaping and Lighting Act of 1972 of the State of California, for the purposes of providing for the cost of operation and maintenance of 483 street lights located within the annexed territories. In addition, Public Works was authorized to prepare and file an Engineer's Report in accordance with Section 22565 et seq. of the Streets and Highways Code. This report is prepared in response to that directive.

The territories designated as Annexation Nos. 1985-44, 1989-08, 1991-01, 1991-02, 1991-03, 1991-06, 1991-07, 991-08, 1991-11, and 1991-01, lie within the City of Palmdale. Street lights within these areas are currently being administered by the County Lighting Maintenance District 1687, which is an established County Lighting Maintenance District created to serve the unincorporated areas of the County of Los Angeles. While the Los Angeles County Local Agency Formation Commission previously approved and issued a Certificate of Completion for a City Boundary Change for the incorporation of these territories to the City of Palmdale, these City incorporations did not result in the areas being withdrawn from County Lighting Maintenance District 1687 and annexed to the County-administered Lighting Districts serving the City of Palmdale, County Lighting Maintenance District 1616B. Withdrawal of these territories from County Lighting Maintenance District 1687 is currently being processed for the Board of Supervisors approval. Pursuant to Section 22613 of the California Streets and Highways Code, these territories were effectively withdrawn from County Lighting District LLA-1, Unincorporated Zone, effective the date these territories were incorporated to the City of Palmdale.

The County Lighting Maintenance Districts are established maintenance districts that were fully funded from ad valorem property taxes prior to the passage of State Constitutional Amendment XIII-A, which limited the maximum amount of ad valorem tax on real property. With the passage of this amendment, property taxes collected from benefitted parcels within the Lighting Districts were insufficient to pay the cost of street lighting. To provide supplemental funding, an assessment district, County Lighting District LLA-1 was formed under the Landscaping and Lighting Act of 1972. County Lighting District LLA-1 has a

separate zone for each County Lighting Maintenance District serving the Unincorporated County territory and each City with an established County Lighting Maintenance District. The County Lighting District LLA-1 zones have essentially the same boundaries as the existing County Lighting Maintenance Districts.

The City of Palmdale has two established maintenance and assessment districts: County Lighting Maintenance Districts 1616A and 1616B and County Lighting District LLA-1, Palmdale Zones A and B.

The Landscaping and Lighting Act provides for the assessment of street lighting costs against the benefitted properties within the Lighting District in proportion to the benefits received. A method of distributing the street lighting costs on the basis of land use and utilizing land use data compiled by the County Assessor was approved by the Board of Supervisors on May 22, 1979, and amended on July 22, 1997, to include Government-owned or leased parcels. The report showing the approved method and the assessment units to be assessed on the various types of lots and parcels is on file in the office of the Board of Supervisors and is made a part hereof by reference.

With the passage of Proposition 218 (the Right to Vote on Taxes Act) by the California voters in November 1996, the levy of an assessment or increase in assessment is now subject to certain provisions under Article XIIID of the California Constitution. This report conforms with the applicable provisions of Proposition 218.

The diagrams of the areas proposed for annexation to County Lighting Maintenance District 1616B and County Lighting District LLA-1, Palmdale Zone B, are designated as Annexation Nos. 1985-44, 1989-08, 1991-01, 1991-02, 1991-03, 1991-06, 1991-07, 991-08, 1991-11, and 1991-01, are on file with Public Works. The diagrams also include the quantity and type of street lights and their general location within the proposed annexation boundaries.

All of the affected parcels of real property located within the territories proposed for annexation are shown in Appendix "A.". These parcels are more particularly described in maps prepared in accordance with Section 327 of the Revenue and Taxation Code, which are on file in the office of the County Assessor and are made a part hereof by reference. The proposed levy of assessments on the affected parcels of real property located within the annexed territories will be based on a \$70 base rate assessment for a single family home. The base rate assessment is established by the Board-approved Fiscal Year 2002-03, Annual Engineer's Report for County Lighting Maintenance District 1616B and County Lighting District LLA-1 Palmdale Zone B, on file in the office of the Board of Supervisors and Public Works, and is made a part hereof by reference.

Engineer's Report
Page 3

The estimated annual operating costs for the street lights located within the territories proposed for annexation to County Lighting Maintenance District 1616B and County Lighting District LLA-1, Palmdale Zone B, are shown in Appendix B.

Upon annexation of these territories to County Lighting Maintenance District 1616B and County Lighting District LLA-1, Palmdale Zone B, the cost of operating and maintaining these lights will be financed by a small portion of ad valorem property tax and by the levy of an assessment, which will be applied to the property tax bills of benefitted property owners within the annexed territories.
